Summary

Currently working as a Senior Software Engineer at Commencis focusing on mobile application development. Graduated from Politecnico di Milano with Master of Science in Computer Science and Engineering. Interested in cross platform development, declarative programming frameworks and scalable and modularized system design. Curious about Web3 and Blockchain.

Work Experience

Commencis
IZMIR-TURKEY

SENIOR SOFTWARE ENGINEER · *July 2021 - Present*

- Leading team member of Pegasus Android client.
- Research for emerging new technologies and creating poc's.
- Improving the architecture and best practises exist in the project.

Commencis
IZMIR-TURKEY

SOFTWARE ENGINEER · *January 2020 - July 2021*

- Team member of the Pegasus Project, working at client side.
- Experience in software development with agile methodologies using Scrum, VCS and CI tools
- Developing native android applications using MVVM and MVP architectures, with Kotlin.
- Performing code review to other project teams to help maintain code quality and performance.

Education

Politecnico di Milano
MILANO, ITALY

MASTER OF SCIENCE IN COMPUTER SCIENCE AND ENGINEERING · *Sep. 2017 - Jul. 2019*

- **Thesis**: Adversarially Learned Anomaly Detection Using Generative Adversarial Networks,   Advisor: Giacomo Boracchi
- **Courses Taken**: Deep Learning, Data and Text Mining, Soft Computing, Natural Language Processing, Recommender Systems, Computer Vision, Parallel Programming, Computer Security, Computing Infrastuctures, Model Identification and Data Analysis

Bogazici University
ISTANBUL, TURKEY

BACHELOR OF SCIENCE IN COMPUTER ENGINEERING · *Sep. 2012, Jun. 2017*

- **Graduation Project** : Image Parody Detection
- **Courses taken**: Introduction to Robotics, Principles of Artificial Intelligence, Concurrency and Distributed Programming, Systems Programming, Machine Learning, Bayesian Statistics & Machine Learning

Skills

Programming	**Language**: Proficient in Kotlin, Java and Python ; experience in Scala, Go, JavaScript, Rust
	Other: Design Patterns, MVP & MVVM Architectures, Reactive Programming
Machine Learning	Tensorflow, Keras
DevOps	Experience in AWS, Docker, Jenkins & CircleCI
Other	Agile Software Developement, Jira, Git, Gerrit, Problem Solving, Communication, Teamwork, Latex
